

# FUSION TICKET SUCCESS LAYS WITH WORKERS

Anti-Townley Committee Shows  
What Organization Work  
Can Do This Fall

## LEAGUE IN MINORITY

Fluctuation of Vote Shows Odds  
Are Against Frazier with  
Perfect Fusion

The Joint Campaign committee conducting the anti-Townley campaign in North Dakota has issued a statement to all voters showing the decline of the Nonpartisan league strength.

The statement is presented chiefly for the benefit of the thousands of anti-Townley voters who have not been called upon to work in the campaign organization, but whose voluntary efforts are asked. Hampered by lack of finances and unable to send paid organizers into every community of the state as the Nonpartisan league is doing, the Joint Campaign committee asks every anti-Townley voter to make himself a committee of one to work for the success of the fusion ticket.

The June primary showed that the Nonpartisan league is in the minority in the state. The balance of victory this fall may hinge upon personal and organization work. The anti-Townley forces must depend on voluntary, and not paid, workers. The resume of the vote shows the following:

General Election	67,314
1918—Frazier Majority	17,784
1918—Frazier Majority (Republican Ticket)	5,414
Primary Election—	
1920—O'Connor vote (anti-Townley Democrat)	7,920
Langer & O'Connor vote (anti-Townley)	
June 1920	61,861
Frazier vote	59,355
Majority against Frazier	2,506
Average "No" vote referred laws June 1920	62,309
Frazier vote June 1920	59,355
"No" vote majority over Frazier vote	2,954

# WOMAN CANDIDATE CHUMS WITH WIFE OF HER OPPONENT

HATTIE HARL

COUNCIL BLUFFS, Ia.—Politics is one thing—and social life is another. Mrs. Hattie B. Harl, candidate for Congress, is proving this. Her opponent is W. R. Green, who has represented this district for several terms in Congress. Mr. and Mrs. Green live at the Grand Hotel, as does Mrs. Harl. Mrs. Harl starts her daily political battle to unseat Representative Green by having breakfast each morning with Mrs. Green. She remains very "chummy" with the congressman's wife, despite her own political ambition.

# ULTIMATUM IS GIVEN BY HEAD OF NEW STATE

Serious Concern Caused Leaders  
in Poland by the Lithuanian  
Situation

Warsaw, Oct. 15.—General Zeligowski, head of the new government formed at Vilna after its recent occupation by its troops has sent the old Lithuanian government at Kovno an ultimatum demanding that all the Lithuanian troops be withdrawn beyond the Vilna-Grodno railway. The ultimatum contained a 24-hour time limit.

Meanwhile General Zeligowski's troops are taking positions in various parts of the newly claimed territory. The establishment of the provisional government of central Lithuania, the name accepted by the new regime at Vilna, is absorbing virtually all the attention of various government officials and has replaced the Riga peace negotiations as the leading feature of newspapers. The occupancy of Vilna also has caused a stir in the foreign ministries, particularly the British and French. They have been in constant communication with their governments with reference to the question arising from the attempt to create a new state with Vilna as its center.

Both the British and French called on General Pilsudski, head of the state, and discussed at length the subject of Vilna. General Pilsudski afterward conferred with Premier Witos, Prince Sapieha, the foreign minister, and others.

It is reported some of the members of the league of nations commission of control who have been at Suwalki have gone to Vilna to confer with General Zeligowski and the members of the temporary commission of the new state.

# TOWNLEY SAFE IN AIR CRASH

Mohall, N. D., Oct. 15.—The airplane of A. C. Townley was wrecked yesterday as he was leaving the Mouse River park grounds, where he spoke in the afternoon at a Chautauqua about 16 miles west of here.

The machine was about 50 feet in the air when it dropped to the ground, smashing the bottom of both the wings, working the landing gear and crushing the propeller.

Neither Mr. Townley nor his pilot were injured.

Mr. Townley immediately left for Newburg where another airplane was to meet him, coming from Fargo.

# METAL WORKS TO SELL MEN STOCK

Youngstown, O., Oct. 15.—The Youngstown Sheet and Tube company employing nearly 15,000 men, today announced a plan for selling 100,000 shares of its stock to employees on a subscription plan with bonuses to those who hold stock.

# BASEBALL BULLETIN

St. Paul, Oct. 15.—The sixth game of the St. Paul-Baltimore game was called off on account of rain. It will be played tomorrow.

# U. S. WILL MAKE INQUIRY INTO WHEAT PRICES

Governor Allen of Kansas is Requested to Forward Evidence to Trade Body

## WILSON MAKES A REPLY

Department of Agriculture is Asked to Make An Investigation

Washington, Oct. 15.—President Wilson has requested Gov. Allen, of Kansas, to forward to the federal trade commission any information he has tending to indicate that the recent decline of wheat prices was due to unfair practices or competition or other artificial causes.

A letter to this effect, sent today by Secretary Tamm, was in answer to many appeals for government action looking to an embargo on Canadian wheat. These were referred sometime ago to the commission and the department of agriculture.

Mr. Tamm, in the letter, said: "The president has received your telegram of Oct. 6 with reference to the wheat situation and has received others of similar tenor. He recognizes the importance of the questions you raise, and he has requested the federal trade commission and the department of agriculture to look into the matter at the earliest possible moment to determine what, if anything can properly be done. In the meantime he will appreciate it if you will let him know how far forward the federal trade commission any information in your possession which, in your opinion, tends to indicate that the recent decline in wheat prices is due to unfair practices or competition or to other artificial causes."

## COMMITTEE MEETS BOARD

Washington, Oct. 15.—Although the agricultural conference held here for the purpose of obtaining more liberal credits for farmers had concluded its sessions a committee awaited in Washington today to hear the future policy of the federal reserve board.

A statement covering the whole credit situation was being prepared by the reserve board, and its agents in conference here and it was expected that it would be made public tonight.

On the committee which is looking after the interest of farmers are representatives of each of the 30 agricultural commodities represented at the convention which ended yesterday. Some members of the committee are in favor of delegating representatives to confer with the American Farmers' association at its convention here next week in the case the forthcoming policy of the reserve board is considered unfavorable to the farmers.

# \$100,000 BRIBE PLOT IS FOUND IN BOOZE PROBE

Plan Was to Oust Honest Officials and Put in Men Who Might be Bribed

Chicago, Oct. 15.—Arrest of three men in connection with the federal grand jury's investigation of an alleged whiskey ring brought out today, according to police officials, that \$100,000 had been raised in Chicago to force out certain federal prohibition agents and replace them with men susceptible to influence of the so-called ring.

Chicago, Oct. 15.—Arrest yesterday of Charles Schilling, alleged go-between, and the taking of three John Doe warrants for suspected revenue agents involved in "whiskey ring" operations, were followed by the appearance of Walter Sadler, a former New York stock broker, before a federal grand jury investigating a plot to oust the county with contraband whiskey. Announcement was made that Sadler would later return to Chicago to give further testimony.

Court attacks said that Sadler told the jury something of his dealings with a distillery at Louisville, Ky., from which whiskey was said to have been shipped. Seizure of this liquor preceded Sadler's confession that a \$100,000 "whiskey ring" had sought to distribute liquor throughout the country.

Schilling, whose arrest followed complaint by Andrew Pappas, proprietor of an inn, that he paid Schilling \$10,000 for whiskey but received only part of the amount, had gained for it is thought by the police to have obtained \$100,000 from saloon keepers to whom he failed to deliver liquor as ordered.

# H. C. L. CAMPAIGN TO BE ABANDONED

Washington, Oct. 15.—The campaign conducted by the department of justice against the high cost of living will be ended and the entire fair price organization disbanded November 1.

Letters have gone out from the department to all fair price committees and all others engaged in the campaign advising them of the department's statement to conclude this work official at the department today stated today.

# MAY IS CHOSEN TEACHERS HEAD MANDAN IN 1920

President of Dickinson Normal Heads Southwestern Section of Association

## INTERESTING PROGRAMS

Speech of Dr. Pidgeon is Received by the Teachers with Applause

S. T. May, president of the state normal at Dickinson, is the new president of the Southwestern section of the state teachers' association. He was elected by the convention now in session in Bismarck.

Mandarin was selected as the place of meeting of the convention next year. Both Dickinson and Mandan bid for the convention.

The teachers had a varied program before them today. The convention ends tomorrow, and tomorrow night many of the teachers will attend the concert of the Minneapolis Symphony orchestra at the Auditorium.

The hearty welcome accorded the visiting teachers by C. L. Yawar, president of the Bismarck Commercial club, brought a welcome also from the Town Criers club. Greeting cards in the windows of downtown business firms assured the teachers of their welcome to the city. People of the city are liberally supporting the symphony orchestra concert.

Jensen, superintendent of the Morton county schools, was named secretary treasurer by the teachers. Three officers from the division to act as members of the committee of the state association were named as follows:

Resolutions, W. E. Parsons, superintendent of Burleigh county, legislation, C. L. Love, city superintendent Mandan; teachers' welfare, Miss N. Somers, Dickinson.

There were two towns bidding for the session next year, Mandan and Dickinson.

County Superintendent Jensen, of Morton county, placed Mandan in nomination, and was seconded by the invitation of the Mandan Commercial club ably presented by Secretary T. H. Sullivan, who read as follows:

"Kindly accept from the Commercial club and Town Criers club of Mandan a most earnest and cordial invitation to hold your 1921 session in our city.

We will co-operate with our county and city superintendents in securing noted educators for the occasion and will plan with your program committee to the end that your idle moments be occupied with wholesome entertainment. It would be impossible at this time to offer even tentative plans for your reception but we assure you that we will do all in our power to make your 1921 meeting as long as be remembered.

The invitation was accepted.

## Friday Forenoon Sessions

The three departments of work in the educational event were in full swing this forenoon with the rural school, under the leadership of state Rural School Inspector J. W. Riley, convened in the City Auditorium. On this program Dr. Ida Alexander, government specialist in tuberculosis, gave an address on Hygiene and Sanitation. Dr. L. H. Beeler, director of Chicago Training school, spoke on the great need of pushing agricultural training in the rural schools. Mr. Riley spoke on need of standardization of rural schools to bring them up to the plane intended for them in the state system.

# BIG GAINS IN WHEAT MADE IN TRADING TODAY

Advances 13 to 13½ Cents on Chicago Board After Bad Opening

Chicago, Oct. 15.—Wheat made a big advance in price today after news became public that President Wilson has asked Governor Allen of Kansas for information which might indicate that the recent big fall in the value of wheat was due to any artificial causes. December delivery ran up 13 to 13½ cents to \$2.21 and closed unsettled at \$2.17½ to \$2.18½.

Announcement of recent large British purchases of wheat on the Pacific coast caused also as a bullish factor and so did word of a unusual export demand for corn during the last few days. Besides a big drop in the ocean freight rates was reported and it was said that seeding advice pointed to a seriously decreased acreage of winter wheat planting throughout the United States.

Most of the hurried buying on which today's advance took place was attributed to shorts and commission houses.

# HUGH JENNINGS OFFERS TO QUIT

Detroit, Mich., Oct. 15.—Hugh Jennings today tendered his resignation as manager of the Detroit baseball club to take effect immediately.

# COAL MINERS ARE NEEDED, REPORT OF U. S. EMPLOYMENT BUREAU SHOWS

The number of persons seeking employment in North Dakota in some lines about equals the number of positions, according to a report of the United States employment bureau, operated in conjunction with the state.

There is a shortage of coal miners and many men are needed for work at a brick making plant and on construction jobs. For the last week there was registered at the Bismarck, Fargo and Minot offices 224 unskilled and 5 skilled male applicants for work. Requests were received from employers for 45 unskilled workmen and 5 skilled.

There were 14 domestic and industrial and 7 clerical and professional applicants registered, and requests were received from employers for 31 domestic, 4 industrial workers and none for clerical or professional positions.

There is a standing request with the bureau for coal miners. Lignite coal mines in the western part of the state, in an effort to supply the demand, are employing practically every applicant, whether skilled or unskilled in coal mining.

# BRITISH GOVERNMENT PLANS TO FEED PEOPLE AS COAL STRIKE IS ASSURED

Unless Unforeseen Intervention Comes Miners Will Adhere to Yesterday's Declaration—Put Embargo on Coal Shipments

London, Oct. 15.—Unless some wholly unforeseen intervention develops more than one million coal miners throughout the United Kingdom will begin a strike on Saturday and the country coal industry will be paralyzed. This decision was reached today at a conference of the miners' delegates who announced that in view of the government unsatisfactory reply to their plea for an increase in wages there was nothing left to do but strike.

It was announced that some of the men in the engineering department would remain at work to keep the mines in order.

Coincident with the strike decision came the announcement that the government had placed a ban upon the export of coal which move will have far-reaching effects on neighboring countries more or less dependent on Great Britain for their supplies.

Many of the British industries, notably in the iron and steel branches and some of the ship-building and engineering works, already are arranging to close down.

The question whether the railway men would be united with the miners was a subject of concern today. The government has made every preparation to cope with the situation to provide food supplies and other necessities. No fear is felt of a food shortage in the immediate future.

American shipping board officers were told that the order prohibiting the coaling of foreign ships was issued to enable the checking up of supplies. The officials were assured after this was done passengers and mail carrying vessels would receive first consideration in allocation of the stock on hand.

# Meat Prices in Restaurants Down

Minneapolis, Oct. 15.—A reduction of 10 to 30 per cent. in the cost of meat orders in Minneapolis hotels and restaurants will be made at once, according to Floyd B. Olson, Hennepin county attorney. Members of the hotel and restaurant association reached this agreement in conference with Olson today.

# DISTRICT ODD FELLOWS MEET HERE OCT. 19

Local Lodge Plans Big Reception for Visitors at District Meeting

More than 100 Odd Fellows are expected to attend the district meeting of Odd Fellows which will be held in Bismarck on Tuesday, Oct. 19.

Capital City Lodge No. 2 will be host to the visiting Odd Fellows and Daughters of the Rebecca will furnish dinner at 6:30 p. m. on that evening.

Odd Fellows from towns in a radius of 75 miles of Bismarck are expected to attend the session. District deputy grand master A. H. Armstrong, of Richardson, will preside at the business sessions. A feature of the sessions will be the conferring of degrees at night upon a large class of candidates in the Bismarck lodge.

# LOFTHUS ASKS MORE EMPLOYES ON STATE PAY

Examiner Says Force Not Sufficient—Bankers of State Loyal, He Says

## BANK OF N. D. REFERENCE

A plea for the employment by the state of several more examiners is made by O. E. Lofthus, state examiner, in his report to Governor Frazier.

Lofthus says that the additional work thrown on the bureau under the industrial program necessitates the addition of several employees. The legislature will be asked to increase the appropriation for the department, it is expected.

The report shows an increase of 11 state banks in the last year, ending June 30, over consolidations, liquidations and nationalizations. Two banks failed during the year. Those whose doors were closed were the First State Bank of Judd and the Farmers State bank of Marmarth.

"On the whole, the department has had loyal co-operation from the bankers of the state," says Mr. Lofthus.

The total capitalization of the state banks is given as \$12,413,000 with resources of \$154,422,994.51. An increase in resources of \$31,811,974.38 is shown.

Mr. Lofthus says very little about the Bank of North Dakota in the report. He presents a statement by P. W. Cathro, on the assets and liabilities.

Mr. Lofthus has authority to investigate the assets and liabilities of state banks, but is limited to investigating the assets of the Bank of North Dakota.

The law charges the examiner with the duty of "inspecting and verifying the assets and liabilities of each state bank."

The law regarding the Bank of North Dakota provides that he shall investigate only assets twice annually and says he "shall inspect and verify the assets in its possession and under its control."

Limitation of the examiner's examination of the bank to assets and only those in its possession and under its control is a convenient provision by which a complete examination can be avoided.

# WHISKY AUTOS ARE CAPTURED

Mohall, N. D., Oct. 15.—Two automobiles, one a Cadillac and one a Buick, containing nearly 700 quarts of whiskey and some beer, were captured near the Canadian border yesterday afternoon by representatives of the state licensing department of the attorney general's office.

Irving Young, Marin Holt and William Kimball, all of Minot, who were in charge of the cargoes, were arrested. Officers who made the arrests declare the men purchased the liquor from a wholesaler who delivered the goods to the boys just across the line on the Canadian side. Defendants were placed under bonds of \$1,000 each and waived preliminary examination.

# COVENANT MADE HARDING TARGET IN BORDERLAND

Nominee Swings Into Indiana from Borderland and "Solid" South

## OPPOSES ONE-MAN RULE

Tells Hearers That Return of Republicans Means Return to Constitution

On Board Senator Harding's Special, Oct. 14.—In a whirlwind trip through southern Indiana today Senator Harding continued his warfare against the Versailles league of nations and asked for a "return to the constitution through the election of a Republican administration and a Republican Congress." He will speak in the Indiana capitol tonight and tomorrow night will wind up his trip with a speech at St. Louis.

Among the nominee's guests on his special train were Senator James E. Watson and several Republican nominees for Congress and he spoke for the election of each of them, telling his crowd that if they were to have a Republican president it would be better to make a clean job of it and choose a congress that would co-operate with him.

The administration's attitude toward foreign trade, the Wilson policy in Mexico and the league covenant written at Versailles, were the special objectives of Senator Harding's assaults on the Democratic lines in his campaigning yesterday and last night through the borderland of the "Solid South."

"Charging that 'secret diplomacy' as practiced by Democratic officials had kept America business men from learning of trade opportunities abroad, the Republican presidential nominee declared the state and commerce departments must be reorganized to give more active aid in developing commerce with other nations.

The president's Mexican policy he denounced as having brought distrust in Mexico and humiliation at home, and he advanced a program of amicable relations to insure protection of American interests on Mexican soil without interfering unduly with the internal affairs of the Mexican republic.

## Opposes Dictation

In his discussion of the league, he reiterated that he wanted no council of foreign powers to dictate America's part in the world, and, reading Article X, told his auditors that, as spokesman for the Republican party, he was "opposed to it." He added that in due time the nation would find a way safely and practically to organize the conscience of the world for peace. Spending the night here he will turn northward tomorrow for a whirlwind swing through Indiana.

Stigmatizing the state department as representing the "lowest possible class of government service" in building foreign commerce, the candidate declared in his speech here tonight "that a complete new policy" was necessary if America was to make its place in international trade. The diplomatic service, he said, had been "demoralized" by the appointment of a "room full of whom I call other qualifications than that of being large campaign contributors."

Referring to Governor Cox's suggestion that the voters be supplied with copies of the league covenant, the senator showed to the crowd at Onida, Tenn., a bulky print of the 80,000 word peace treaty and said that even a reading of the English text would be unsatisfactory because it differed from the French.

## OFFER LOT OF MONEY

New York, Oct. 14.—Democratic national headquarters today announced a cash prize of \$25,000 offered by the pro-league Independent to Senators Harding, Johnson, Borah and Lodge. Chairman Hays of the Republican national committee or anybody else who could first prove that the league of nations would "abridge the sovereignty of America."

# TO HEAR 'PHONE CASES OCTOBER 21

Hearing on the petitions for the North Dakota Independent Telephone company and the Northwestern Telephone exchange for increases in rates for telephones in nearly all parts of the state will be heard by the railroad commission on Oct. 21. Newspaper announcement that the hearing would be held on Oct. 16 is incorrect.

# FIRST WHITE CHILD IN CENTRAL WEST DIES

Minneapolis, Oct. 15.—With the death here of Henry Mousou, 86-year old Minnesota pioneer, passed what was said to be the first white child born in the east central part of the state, and the driver of the first car, horse propelled, in Minneapolis. Mousou's father, a voyageur for the American Fur company, came to Lac qui Parle in 1829, and shortly after, removed to Fort Snelling, where Henry was born.

Henry was the oldest of a family of twelve. He and his brothers and sisters were the first to attend the initial school established here.

# AND WHAT DID THE SLUMBERERS SAY?

TOLEDO. Patrolman Young smothered smoke on his heat. A barbed wire of horrors was burning. Young dashed into a nearby home, grabbed a sheet of some sleeping occupants, wrapped it over the horses' heads and saved all five.

## FARMERS LEAVE, PROBLEM WILL BECOME SERIOUS

### Will He Stick? Now, He'll Just Quit, Says Woman Writer on Subject

#### A NATIONAL SITUATION

BY FLORENCE BORNER

Will the farmer stop producing food unless he is assured a fair living wage, as other businesses? I do not believe the farmer will ever strike, in the fullest sense of the word. He has too much love for his fellowmen to ruthlessly plunge them into starvation. Nevertheless, the farmer cannot long continue in producing food at a loss. As his capital decreases he will be compelled to reduce his acreage, though no fault of his own.

While other business enterprises were flourishing during the war the farmers kept growing poorer. Why? Because they were discriminated against. In that a price was set upon their staple products, while no price was set on the things they had to purchase. Thus in entering the market the farmer was handicapped both in selling and buying.

The farmer stands in the market place of the world today asking these two questions, "What will you pay?" and "What does it cost?" He has absolutely no control over the price he receives for his products, but must take what is offered him.

What other business could flourish under such conditions? What other business man would submit to these indignities?

In certain communities in the East there is one abandoned farm for every five occupied farms, and over half of these occupied farms are run by tenants. America's food supply, which things with a farm and a laborer, instead of decreasing, farm tenancy is rapidly on the increase, and if something is not done soon our farm lands will all be in the hands of a few men—as are our country's greatest resources.

The farmer has discovered that he can make more by renting or selling his farm and working at common labor in the cities. The call has been for more and more men and the wages are high.

The farmer has found it more and more difficult to keep help on the farm, and he has seen his crops perish for lack of help at the proper time. Therefore he gets disgusted and quits.

Another thing. The price of the farmer's crops have been steadily hammered down, until at the present time wheat is nearly one dollar under the actual cost of production.

If farmers have to sell at these prices many of them will go broke and cannot put in another crop, even though they should care to. On the whole the farm outlook for the future is anything but cheerful.

You cannot eat your cake and have it too, nor can you put the farmer out of business by low prices and expect him to continue producing.

More and more farmers will give up farming for better paid vocations, until some morning we will wake up to find an actual food shortage staring us in the face.

But then it will be too late to recall the men who would have continued feeding us if we only would have taken the trouble to see that they received a fair living wage for what they produced.

Then, the farmer won't strike—he'll just quit altogether.

### CIVIC BODY BUILDS 100 MODERN HOMES

St. Louis, Mo., Oct. 14.—The Home and Housing association which was formed here last year by civic organizations to finance the construction of residences and relieve the shortage now has more than 100 houses completed or under construction.

Labor troubles will cause the association to fall behind on the program which called for the erection of 200 homes this year, it was said.

The buildings are thoroughly modern, and sell from \$5,500 to \$8,900. Purchasers are required to make an initial payment of 10 per cent of the cost of the places, and the balance is spread out over a period of 10 to 12 years.

Despite the fact that Orland T. McGiffin, of Dover, O., drew No. 131313 in the draft, he saw service on six fronts and came through without a scratch.

### DIAMOND DYES

Any Woman can Dye now

Each package of "Diamond Dyes" contains directions as simple that any woman can diamond-dye any old, faded garments, draperies, coverings, everything whether wool, silk, linen, cotton or mixed goods, a new, rich, fadeless color.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist will show you Diamond Dyes Color card.

## FARMERS IN N. D. AND MINNESOTA HOLDING WHEAT

Minneapolis, Oct. 14.—More than 500,000 bushels of grain, valued at fully a half a billion dollars, is being held on farms of Minnesota, North and South Dakota, and Montana by farmers who are anticipating higher prices, according to figures compiled by Minneapolis firms.

Of the total crop of these four states estimated at 754,000,000 bushels on September 1, only 118,000,000 bushels have been hauled from the farms and have been marketed.

### TEACHERS THANK SUPERINTENDENT

The Burlington county teachers' institute adjourned last evening and the teachers joined today in the southwestern section of the state teachers' association.

Before ending the county session the teachers adopted resolutions praising county superintendent W. L. Parsons and his deputy, Mrs. Nellie Everts, for their efforts in giving this assembled body of teachers such instruction as has been fitted to our needs and for the entertainment provided.

The discussion of Mrs. Parsons and Mrs. Ganz, the address of E. J. Taylor, deputy state superintendent, and the instruction of Miss Grace Randall, of Minneapolis, were praised by the teachers.

### HORSES IN BIG ENDURANCE TEST

White River Jct., Vt., Oct. 14.—The horses competing in the 30-mile endurance test swept out of this town and into New Hampshire today with 150 miles to cover to reach their goal at Camp Devens, Mass., tomorrow evening. Of the 27 mounts which started the race only 16 remained.

### YOUNG GIRL IS FOUND MURDERED

Minneapolis, Oct. 14.—Beaten into unconsciousness by an unknown assailant who used a rough stone for a weapon Dorothy Bowers, 17 years old, died early today a few hours after she was discovered on a pile of brush within a block of her home. She did not regain consciousness.

### ARMY AIRPLANE REACHES WINONA

Winona, Oct. 14.—Plane No. 1 of the army squadron, bound on its return from Alaska to Minneapolis, N. Y., arrived here at 12:15 today from Fargo, the journey requiring slightly over three hours.

Fargo, Oct. 14.—The four airplanes flying from Alaska to Minneapolis, N. Y., left this afternoon for Winona, Minn., where they expect to arrive early in the afternoon. Plane No. 1 left at 8:55 but the other three were delayed until 10 o'clock.

SEVEN KILLED

Dublin, Oct. 14.—Seven men were killed, five wounded and two are missing as a result of an explosion today in a house at Tintern, Wexford county, according to the official report. The statement adds that it is believed that they were experimenting with bombs.

### INSURANCE MEN HERE.

C. G. Lolland and J. C. Jamieson, of Minn., agents for the Provident Life Insurance company, were Bismarck visitors yesterday.

### Sleep Better on the Essbee Adjustable Spring

Everybody likes the idea of a bed spring that is adjustable to their own weight and comfort. Here is a spring that can be adjusted so that two occupants—one of two hundred pounds and the other a lightweight can both have perfect comfort.

One of these springs will make the phrase "a good night's sleep" take a new meaning for you.

They are made in sizes to fit any standard bed and are guaranteed for 25 years. See them at your dealer's.

The United States Bedding Company  
Saint Paul, Minnesota

## ESSBEE

### ADJUSTABLE SPRING

Also making the famous Essbee Non-Stretchable Mattress

### LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, and arms, and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

### A. C. OFFERS FREE MOVIES

Fargo, N. D., Oct. 14.—The North Dakota Agricultural college is offering a collection of motion picture films and slides on agriculture and numerous other subjects, for distribution among schools and clubs in the state.

Beside agriculture the subjects covered in the list are: Art, botany and zoology; commerce and industries; education, engineering and mechanics; geography, scenery and travel; history and biography; home science, health and welfare and military.

Returns from Trip

Dr. M. W. Gilmore, curator of the historical society museum, has returned from a trip through the northern part of the state during which moving picture films were taken for his historic spots for use of the immigration department. He visited Sully Hill national park near Devils Lake, Wahalla in Pembina county, and the Elbowood reservation Indian fair.

### BANKERS HERE.

Fred Wick, banker of Center, and J. H. Huff, banker of Sauk, were Bismarck visitors yesterday.

Sell your cream and poultry to our agent, or ship direct to Northern Produce Co., Bismarck. Write us for prices on cream and poultry.—Northern Produce Co.

### "OUCH! THAT OLD RHEUMATISM!"

Get out your bottle of Sloan's Liniment and knock the pain "galley-west"

WEREN'T ready for that last quick switch in temperature, were you? Left you stiff, sore, full of rheumatic twinges?

You should have had a bottle of Sloan's Liniment handy that would have penetrated without rubbing, warmed and soon eased up the muscles, quieted the jumpy, painful, affected part and brought gratifying relief.

Helpful in attacks of lumbago, sciatica, external soreness, stiffness, strains, aches, sprains. Get a bottle at your druggist's. 35c, 70c, \$1.40.

## THIS LITTLE WOMAN GAINED 33 POUNDS

Milwaukee Resident Was Too Weak to Talk When She Started Talking Tanlac Believes It Saved Her Life

"I have not only gained thirty-three pounds by taking Tanlac but I really believe it has saved my life," said Mrs. John J. Wisniewski, 1132 Windlake Avenue, Milwaukee, Wis. "Before I found Tanlac," said Mrs. Wisniewski, "I lost so much weight and strength that I only weighed a hundred and two pounds and couldn't even get about. A severe attack of influenza left me with a terrible cough and I went down hill very rapidly. My kidneys worried me and I had awful pains in my back. I had suffered for a long time from rheumatism in my knees, wrists and elbows, and at times I couldn't stand up or even use my arms. I had severe pains around my heart and would become dizzy."

"I was so nervous that I just couldn't sleep. I had no desire to eat and I got so weak that I couldn't even walk from one chair to the other, much less do any of my housework. I spent hundreds of dollars and took all kinds of medicines and treatments but none of them did me one particle of good."

"The way Tanlac has helped me is nothing less than wonderful. My kidneys are now in fine condition and the pains are entirely gone from my back and around my heart. My strength returned rapidly and that bad cough has disappeared. The rheumatism has all gone from my wrists and elbows and I can do all my housework with perfect ease now."

Tanlac is sold in Bismarck by Jos. Breslow, in Driscoll by N. De'and J. H. Barrette, in Wing by H. P. Hoffman and in Strasburg by Strasburg Drug Co.

## JACOBUS GIVEN WESTERN POST ON NO. PACIFIC

G. H. Jacobus, superintendent of the Yellowstone division of the Northern Pacific, with headquarters at Denver, has been advanced to the superintendency of the Montana division, with headquarters at Livingston and will take up his new duties on October 15.

T. H. Lantry, former superintendent of this division has been made superintendent of a coast division, with headquarters at Seattle.

It has not as yet been definitely announced who will succeed Mr. Jacobus on the Yellowstone division, but reports have it that Ted Sloane, who was formerly rainmaster at Mandan and who has been superintendent of a division at Pasco, Wash. will be put in charge here.

Mr. Jacobus during the several years he has been in charge of the Yellowstone division has made hundreds of warm friends, not only in railroad circles but among the business men along the division who regret to see him leave.

## PEARL WHITE IS DUE IN BIG FOX SPECIAL

A rare treat is promised for ardent followers of the silent drama. Pearl White, a star whose admirers are numbered by many millions in all parts of the world, is coming to the Eltinge theatre, commencing Monday in a special William Fox production, "The White Moll," from the pen of Frank L. Packard, famous author of "The Miracle Man." E. Lloyd Sheldon made the scenario, and the well-known Harry Millard directed the film.

Beautiful, thrilling and intensely appealing is the way this amazing photodrama is described in advance reports. The scenes are laid in the underworld of the big city where gunmen and crooks in general ply their trades of robbery and murder. The story revolves around Rhoda, a former crook, who, having reformed, in a miraculous way, enters upon settlement work in the slums. Her kindness and helpfulness among the poor and the criminal have earned for her the title of "The White Moll."

When the White Moll starts to reclaim "The Sparrow," a notorious safe-cracker just released from prison, she incurs the enmity of "The Dangler," leader of the gangsters. Then follows that part of the story in which one of the most powerful themes ever shown on the screen is brought out—sensational following sensation with lightning speed.

Richard C. Travers supports Pearl White in this special production and the remainder of the cast includes Eva Gordon, Walter Lewis, George Pauncefort, J. Thornton, J. Slattery, John P. Wade and John Woodford.

## DECLARES BANKS HAVE ASSISTED IN ADJUSTMENT

President Alexander of New York Institution Replies to Critics

### MUST CONSERVE CREDIT

New York, Oct. 15.—James S. Alexander, president of the National Bank of Commerce in New York, told a group of exporters at the annual convention of the American Manufacturers' Export association here today that the banks and not failed to co-operate with business men to the fullest extent in the present business emergency. He said that there had been any such tendency, on the part of the banks it was due to a misconception or a failure to give weight to fundamental facts, he said.

Mr. Alexander admitted that in the past there had been some basis for such an accusation, but he attributed this to the fact that the banks were not then organized to support one another and each was compelled to protect itself by contracting its loans in times of stress. Under the Federal Reserve system, however, Mr. Alexander said this fundamental weakness in the American banking structure had been corrected.

Banks Co-operated.

"During the period through which

### "The White Moll"

have recently passed by went to the loyal cooperation of the banks with business maintained the soundness of the business structure in a way never before attained in this country. If any one feels that the banks as a whole have not co-operated with business as they should, it is because he does not fully appreciate the fundamentals involved. When the American credit structure was first expanded, he said, the volume of credit had shrunk and it had been the duty of the banks to conserve their positions with the utmost care. He regarded this as the best service the banks could render to business for "weakened banks would have meant disaster."

The peak of credit expansion must soon pass, he predicted, but he forewarned that there must be established stable price levels so that business could be conducted on the basis of prudent judgment rather than of guess and speculation. There also must be adequate production and credit should be conserved so that there would be ample funds for long term investment for railroad building and repair and for housing construction. Mr. Alexander pointed to the danger of seeking to stimulate by artificial measures the volume of American foreign trade and said that the

**This Is Your Last Chance  
to get your  
O-Cedar Polish Mop  
at The Old Price  
Advance Prices Effective Nov. 1st**

**B**UT a few days remain for you to buy an O-Cedar Mop at the old price.

Increasing manufacturing costs make the raise in price necessary if we are to continue to give you the biggest, most convenient—time, money and labor saving household utility.

The increase is only 25c—but 25c is worth saving.

Originally, (before the war), the price of the O-Cedar Polish Mop was \$1.50.

During the war, we used war materials—short length cotton—mill ends of drill—surplus steel for centers and by making the mop smaller we were able to keep the price down.

Now the sources of supply of most of these items are cut off. We must go back to before-the-war materials and pay today's prices for them. For instance cotton cord cost 14c to 16c per pound before the war. Today it costs us 58c. Handles that cost 4c in 1914 cost 12c today. Our labor costs have advanced 200%. And so on.

We will not make a mop that is not up to the O-Cedar standard. We can't continue the O-Cedar standard at present prices. So the advance of 25c is absolutely necessary for us to continue O-Cedar Mops as the millions of housewives want them.

The 25c advance in price is effective November 1st. Even if you do not need a new O-Cedar Mop just now it will pay you to buy one at your nearest store today.

Almost every woman in America knows the work—the time—and the money the O-Cedar Mop saves. And how much prettier, brighter and cleaner it makes the floors. They know it saves back-breaking stooping and bending. When you use an O-Cedar Mop your floor will be the envy of your neighbors.

### Easy and Simple to Clean and Renew

Second only to the wonderful utility of the O-Cedar Mop is its simplicity. No trick to learn to wash, clean or renew it. It can be washed and cleaned without bother and muss to take it apart, and fuss and work to put together. When an O-Cedar Mop needs renewing, simply wash it in boiling water, pour a little O-Cedar Polish in the can and let mop stand in it over night. The next morning it is practically as good as new.

Get an O-Cedar Mop today. Your dealer guarantees it to give perfect satisfaction or will return your money.

**Today's Prices: \$1.25, \$1.50, \$1.75**

Prices November 1st.: \$1.50, \$1.75, \$2.00

### Prices Advance on November 1st.

Conditions beyond our control have forced us to add 25c. to the selling price of every O-Cedar Mop on November 1st. Save money by buying now.

ELTINGE THEATRE  
COMMENCING MONDAY

## GIRL AND MUSIC SHOW ENTERTAINERS

The "Frivolities of 1920" came to Bismarck last night and left with those who saw the girl and music show expressing varied opinions. The revue was organized on a big scale, and had in it a number of attractive scenes and gorgeous costumes. Some of the music was tuneful and the lines were good. What the show lacked most was talent and a little cleansing. Nelson and Chain were the chief entertainers of the show. They made a lot of Bismarck people laugh when they were here with the Fanchon and

## LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, and arms, and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates.

Marco and did so again. Nelson and Chain are really good vaudeville artists and successfully imitate the famous Doolleys of the Follies in some of their scenes. It is a little difficult to understand why they should find it necessary to resort to offensive and vulgar lines to get laughs.

## BABY BOY

A baby son was born to Rev. Lewis Denninghoff and Mrs. Denninghoff of Taylor, at the Bismarck hospital, on Thursday, October 14.

## BRADDOCK VISITOR

Mrs. J. D. McClusky of Braddock was the guest of her parents, Mr. and Mrs. Patrick McHugh of 412 7th street for a few days this week, return to her home this morning.

## LEAVES FOR MINNEAPOLIS

Miss Agnes Orr, who has been spending several days with her parents, Mr. and Mrs. Robert Orr, will return to Minneapolis this evening to continue her social service work.

## RETURNS FOR WINTER

Mrs. W. F. McGrath, 412 Rosser, has returned and opened her home for the winter, having spent the summer with Mr. McGrath at Devils Lake. En route home, Mrs. McGrath visited friends in Grand Forks.

## DINES INVALID

Miss Norma Craven, a patient at a local hospital, was honor guest at a small dinner party today at the home of Mrs. Geo. Welch. The Boyd sisters, Roberta and Mildred, whose home is also at Menoken, were guests at the dinner also.

## GUEST AT DINNER

Miss Martha Evans, who is employed in the workmen's compensation bu-

reau, was the guest of honor at a dinner given last evening by several of her capitol girl friends, in honor of her approaching marriage to Albert Johnson. The bride and groom will leave immediately after the ceremony for California where they will make their future home.

## TENNIS CHAMPION

The older residents of Bismarck may recall a former resident, Miss Elizabeth Tschertart, who was in the Civil Service with the U. S. Land office in Bismarck in 1905 and later. News from friends recently is to the effect that Miss Tschertart now holds the woman's championship in tennis at her home in Los Angeles, California.

## OHIO GUESTS

Mr. and Mrs. P. C. Remington and daughter, Mrs. L. A. Schipfer who have as house guests during the late autumn, a niece of Mrs. Remington, Mrs. F. W. Kulins and Mr. Kulins of Dayton, Ohio, have had several pretty social affairs in their honor. Also Mr. and Mrs. F. W. Murphy. Rose apartments gave a dinner and theatre party of eight last evening for Mr. and Mrs. Kulins. Mr. and Mrs. R. S. Towne entertain the Benedict club at their home this evening with Mr. and Mrs. Kulins as honor guests.

## Moffit Visitor Here

B. F. Lane, of Moffit, was in Bismarck on business yesterday.

## Enters Hospital

Miss Bessie Clark has entered St. Alexius hospital.

Wanted—Experienced bookkeeper and stenographer. S. E. Bergeson & Son.

## SCHOOL FOR VOTERS MASONIC TEMPLE GREAT SUCCESS

The school for women voters called to meet at the Masonic Temple last night was well attended, about seventy-five women availing themselves of the opportunity to hear instruction on the new duty of casting the ballot. Very clear and readily understood was the discussion, led by Messrs. O'Hare

## CARE IN BUYING

Nearly every buying mistake comes from not being careful enough. A trifle more time spent in making sure may save you many dollars and many hours of regret. The corset you buy and never wear is the really expensive corset. The corset that misses being exactly what you want is the one that costs more than you

can afford. The ordinarily made corset that loses its shape and does not wear well is an extravagance.

If you will permit us to properly fit you to a Gossard Corset we will assume full responsibility for your complete satisfaction. Our expert service protects you against regrettable buying mistakes.

**LIFE'S COURSE**  
The setting sun passes over the western rim and its last beams fall upon an old man who watches from his hospital window for the ending of his own day.  
How like the course of the sun is the span of man's life!  
It dawns with a pink flush of hope which quickly fades. It toils through the long middle stretch, bringing warmth and providing for them it protects.  
Then, scarcely before we realize it, the zenith is passed and the rapid descent into the clouded west is started.  
Clouds are as the accomplishments of man on his journey. They reflect the glory of the sun's rays.  
In glorious tints of gold and mauve and saffron they hold the magic of a thing departed, they presage the rising of the sun in another land after its setting here, the coming of another life after the passing of this one.

A Christmas hint now is worth two when the rush is on.  
**HOW THEY VOTE**  
It isn't true that, as many a politician has said, "the women will vote as the men vote."  
That this is a fact shown by the official returns of the Illinois primaries. In the Republican primaries there a powerful political boss (Thompson) was the issue. The fight was for and against the Thompson machine. The result? The Thompson machine candidate for senator got a 9000 plurality of the male vote. But the anti-machine candidate got 38,000 more women's votes than the Thompson man.  
The Thompson candidate for governor received 46,000 more votes of men than his opponent. But the anti-Thompson candidate got 38,000 more women's votes than the machine man.  
Illinois women proved conclusively that they will not vote as men vote when men insist upon voting for political machines and political bosses. Nobody better than the bosses themselves know why they were so emphatic in their opposition to woman suffrage.

Even the most loyal can envy the ex-kaiser his wood pile in these fuelless (or fuelish) days.  
**GIDDAP!**  
Yes, yes, go 'long with statistics on the faithful horse. The fact that he has increased, together with his cousin, the mule, from 24,000,000 in 1910 to 27,500,000 in 1920, despite a total war shipment of 2,500,000 overseas, sounds all right, but just the same it's the auto salesman whose wives have the big fur coats.  
But wait a minute, mister. Almost anyone would have talked just like that until the Master Horsehoers' Association met in solemn conclave in Chicago early this fall. But when the village smiths talk about the college courses in their art, the study of anatomy as relating to peak loads, and the like, you are likely to have one more preconceived notion given a violent jar.  
It costs 17 cents a hundred pounds to transport goods by motor truck within a radius of six miles, and eight cents every time the motor stops. By horse it costs six and two-thirds cents a hundred pounds, and when the horse stops all you have to do is holler giddap.  
That's the kind of scientific talk the horse-shoers give. Fifty thousand dollars has been spent to establish a school of horsehoeing at Cornell. They admit that the spreading chestnut tree wouldn't recognize the modern smith, but they are just as insistent that still, "the smith a mighty man is he."

"Coyote lope" is the name of a new dance. The "Cootie hop" would be a cute dance.  
**PRETTY HEALTHY, NOW!**  
You have heard much about the foreign trade your Uncle Samuel was losing this year; that he was in a bad way, with a feeble export pulse and an abnormally high import fever. Indeed, the pessimistic diagnosis last spring seemed to indicate an early funeral, or at least, a long spell of sickness.  
But it wasn't as bad as the doctors of commerce thought. Or, the patient has made surprisingly rapid strides getting back upon his feet, for he's there now, all right, all right! This is based upon statistics, the true thermometer of

business prosperity. The latest figures on foreign trade shows that during the first eight months of 1920 American exports increased over 200 million dollars. During the same time imports increased over a billion 700 million. (The world is thus paying her debt to America.) But, you notice the exports didn't drop. They increased! Which is highly satisfactory to the American producer.  
It is true that exports to Europe fell nearly half a billion; but this decrease was made up by the half billion increase to North America. And, better still, American exports to Asia, Africa, Oceania, South America, increased in 1920. What exports this country lost to France, England and Italy, she more than made up by increasing exports to Cuba, Canada and Mexico, next door neighbors.  
If Europe cannot buy because of war debts, Asia, Africa, Australia, and the Americans can—and will—purchase.

**SOMEONE WHO CARES**  
A little girl stands on a suburban corner, one hand clasping that of a little tad in rompers, the other holding a lunch basket.  
A car comes along and stops. The conductor runs out and kisses the girl and lifts the little boy to hug him.  
He whistles as the car rolls on. "Yours?" asks a passenger. "Yep," he answers. There is pride in his voice. The joy of life seems to be in him as he pursues his tracks.  
Someone cares. A woman who packs his lunch. Little children who stand and wait to be loved.  
Someone who cares—that is what puts the joy in life for all of us. That is the thing that lightens burdens, that drives us on in our work, that makes life itself worth-while.

**W'EN ROBINS NES'**  
Does one remember that dandy situation in Madame Butterfly between The Butterfly and her maid, Suzuki? It is the one where Suzuki doubts if Lieutenant Pinkerton, U. S. A., who has sailed away, will ever return to his little Japanese wife. "I know w'en he come back," says the undoubting little woman. "He tol' me. When he lef' he says 'an' don' worry 'bout me—I come back we 'robins nes' again!' Ha-ha! Tha's w'en he come back—w'en robins nes' again."  
Same way with normal living prices, folks. Same way. They are coming back again. It is only a matter of time. They're coming back when the robins nest again, if not sooner.  
Madame Butterfly looked out of the window at once, to see if the first robin had appeared. It had.  
Don Jaime of Bourbon has been restored to citizenship by Spain but Demi John of Bourbon will never have the same luck in the U. S. A.

**EDITORIAL REVIEW**  
Comments reproduced in this column may or may not express the opinions of The Tribune. They are presented here in order that our readers may be informed of the issues which are being discussed in the press of the day.

**THE COST OF STATE FLOUR**  
This is just a little story about the purchase of a carload of flour by the farmers' elevator at Sharon.  
Last July the elevator was in the market for a carload of flour, and it wrote or telegraphed half a dozen mills for bids.  
A St. Paul mill bid \$14.00 a barrel delivered at Sharon for its best patent flour.  
A Valley City branch mill bid \$14.80 for its best patent.  
An Osakis mill bid \$14.20 f. o. b. Sharon for its best patent.  
A big Minneapolis mill bid \$14.80 delivered for its best patent.  
And the Drake mill, owned and operated by the State of North Dakota which was designed to "beat the profiteers" bid \$16.00 a barrel f. o. b. Drake for its best patent flour.  
And the Drake mill is exempt from the taxes which the privately owned mills pay.  
The Forum has the original letters submitting these bids, and will keep them on file for a few days. If any North Dakota voters question the figures, we will gladly let them examine the letters at any time during the next week or 10 days. They are an unanswerable proof of the extravagance and inefficiency of state ownership of industry.—Fargo Forum.

You can hardly blame your Uncle for not wanting to let the place to them

**The Experiences Of Hiram Wise**

**INTRODUCTION**  
"Hiram Wise" is a farmer of the old school who believes in the "emancipation of humanity." Being a forward looking man, he is one of the first to join the Non-partisan League when its organizers visited his community. While his past experiences are told in story form, practically every one of them has been duplicated in real life.  
"Bobs" speech has been written in digest in order to carry out the general idea. It is "Hiram" who is doing the talking, telling the reader of his experiences with the Nonpartisan League in emancipating North Dakota.  
—The Author.

**Chapter VII**  
**He Gets His Tax Receipt**  
If anybody ever tells you the Non-partisan League reduces taxes you tell 'em they don't know what they're talkin' 'bout. Now when that organizer cum 'round he promised us that our taxes would be less than they had been, an' o' course we believed it. That wuz one o' his strongest talkin' points. Taxes wuz awful high that year an' o' course we thought when we had our organizashun goin' they would be considerable lowered. But wuz they?—Well, I shoudn't say. They wuz three times higher than they ever before an' when the farmers found it out they set up a holler that could be heard in the next county. Taxes! It seemed as if we didn't have nothin' else but 'em. An' all the war taxes on top o' 'em we felt as if we wuz worse off than ever before. An' then o' course an' order to meet these extra taxes the farmers what owned all the land around here

**Widow Preferred to Meet Death at Home**

"For many years I suffered from stomach trouble. All the doctors I tried helped me but little. All said I would have to go to hospital and be operated on for gall stones or I would not live much longer. I told them I preferred to meet death at home. One day I picked up an advertisement of May's Wonderful Remedy and since taking a course of it more than a year ago have not had a single pain in my stomach, have good appetite and can eat anything. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. All druggists.

raised their rent an' the farmer had to pay that, too.  
Actually it looked as if the league had tried to legislate the farmer out o' business, an' make him sell his farm to pay the taxes. Somebody once said taxes wuz like death—everybody had to pay but you can only die once while you have to pay taxes every year. If you don't you ain't got no farm. So bein' taxed so high worked a hardship on a good many farmers who had other debts beside an' had expected a small increase in 'em. Just as the papers said there'd be. But by comparin' our taxes with other states the papers made us think we had got off mighty easy, at that. An' besides wuzn't we inauguratin' a New Day which would emancipate the farmer an' send the grain gambler an' speculator galley west? So although sum o' these did do a lot o' complainin', the main poison o' the farming populashun paid their taxes gladly with an eye on the future when like the grain gambler taxes would be a thing o' the past.  
Poor ignorant fools! As I look back on how we swallered everything we read an' wuz allers ready for more I wonder that we wuzn't stung a thousand times worse than we wuz. For what wuz there to blunder.  
(To be Continued)

**PEOPLE'S FORUM**

The following letter appeared in the Minnesota Daily Star, the Townley paper in Minneapolis.  
**DEFENDS MISS NIELSON**  
To the Editor, I read with interest the reports of Miss Minnie J. Nielson's trip to Minneapolis in all the local papers, and being a constant reader of the "Star" I wrote the letter "A Home View" by Kent Christenson of Benedict, N. D., and I am sure it is Mr. Christenson knew Miss Nielson personally and was not prejudiced he would not say she was "bluffing".  
I was principal of the Dazey, N. D., high school four years when Miss Nielson was county superintendent of Barnes county and her efficiency was everywhere recognized and she brought the rural schools of Barnes county to an enviable standard. I attended five state meetings while teaching in North Dakota and whom Miss Nielson spoke she had a message to the teachers and they gave her undivided attention while often the so-called "big gun" hardly had a hearing. Those who know Miss Nielson best recognize in her an efficient leader in educational matters and it is only people of small caliber who will let politics enter into educational matters to the detriment of the schools.  
The people of North Dakota knew a good thing when they elected her superintendent of public instruction and then re-elected her and will do so again. What is the matter with the teacher in your district, Mr. Christenson? Ninety-five per cent of the teachers are for Miss Nielson. There

are too many fads in the school and Miss Nielson is eliminating them and substituting real benefits to the farmer boys and girls such as corn raising contests, pig raising contests, bread baking, butter making, etc.  
If Miss Nielson were as well known in Minnesota as in North Dakota and came here looking for votes, she would get them. Boost your schools, Mr. Christenson—every knock is a boost for Miss Nielson.  
Minneapolis, Minn. W. L. HODGE, Editor of Tribune.  
For over 144 years our government has been the one hope of the down-trodden and oppressed of other countries—and the people of those countries have found here what they were unable to find elsewhere—a free and just government, where humanity as well as justice has always been found at the helm, a government where all are equal and free to enjoy the blessings of liberty, but this liberty does not give any one the right to violate any of our laws, laws which all men and all nations must respect, honor and obey.  
For over 144 years this government has been a blessing to the world, and in every emergency the patriotism, the loyalty and the good common sense of the American have triumphed, and the nation has been maintained

**CASCARETS**  
"They Work while you Sleep"

Knock on wood! You're feeling fine, eh? That's great! Keep the entire family feeling that way always with occasional Cascarets for the liver and bowels. When bilious, constipated, headachy, unstrung, or for a cold, upset stomach, or bad breath, nothing acts so nicely as Cascarets. 10, 25 and 50 cents.

## DOINGS OF THE DUFFS

## CHAUMOOGRA OIL TO BE USED IN TUBERCULOSIS CASES BY PUBLIC HEALTH SERVICES

Washington, Oct. 15.—Refined chaumoo-gra oil which experts of the government Public Health Service say has arrested the progress of leprosy is soon to be used by them in the fight against tuberculosis. The experiments with tuberculosis patients will be conducted in Hawaii.

Dr. J. T. McDonald, superintending physician of the leprosy investigation station at Kalahehi in Honolulu, with Dr. A. L. Dean, chemist and president of the University of Hawaii, will start the fight against tuberculosis at the same time continuing their work against leprosy.

No concrete result of the use of the chaumoo-gra oil in tuberculosis cases has yet been reported to the bendure of the public health service here, but from their investigations with tubercular bacilli isolated from a patient, Dr. McDonald and Dean have hopes of successful treatment of patients themselves.

The bacilli of leprosy and tuberculosis, according to government scientists, have been found to have similar characteristics, and the fatty acids of chaumoo-gra oil seemingly have proved poisonous to the leprosy bacillus. This is the basis for the scientific hope that these acids likewise will be deadly to the germ of the "white plague."

Dr. McDonald has not yet made any formal report of the work with the tubercular germs to officials here, but unofficial reports from Honolulu quote him as saying that scientists at the University of California have discovered that the fatty acids of chaumoo-gra oil are bactericidal to an acid-fast bacillus, in which class are the leprosy and tubercular bacilli. The inference, according to the doctor is that what has been done to end the dread of leprosy may possibly be repeated to relieve the world of tuberculosis.

The public health service maintains a tubercular hospital in Hawaii separ-

ate from its leprosy station, and the experiments with tubercular cases are to be conducted at the health officials here remain from any prediction of results, but express hope that chaumoo-gra oil will prove a specific for curing tuberculosis.

## There's No Picture Like the Picture of Health

The greatest masterpiece in the Art Gallery of Life is Nature's "Picture of Health."

It is a marvelous portrayal of the human body at its best. One beholds in its composite of truest working order, all parts of which are sound, well organized and discharging their functions freely, naturally. If you fail in any single point of reason, balance, you are not the picture of health. It is imperative, then, that you look, as a means to build your strength, energy and vigor, to the picture of health, and a face radiant in color and illuminated with a glow of hope and cheerfulness.

**LYKO**  
 The Great General Tonic

Nothing is more efficacious as a restorer of exhausted nerves and physical forces than LYKO, the great general tonic. It tends to the worst of the blood, creates new power and red-ones, and revives the spirits of those who are weak, fall, languish and over-weight as the result of sickness, excessive strain, worry or over-work. It is a reliable appetizer, a splendid aid to digestion and a functional regulator of the liver, kidneys and bowels.

Get a bottle TODAY and you'll command more to look more like the picture of health.

Sole Manufacturers: **LYKO MEDICINE COMPANY** NEW YORK KANSAS CITY, MO.

LYKO is sold in original packages only. The picture above shows all substitutes.

## COMMUNITY KITCHEN HAS SOLVED SERVANT PROBLEM

thermal container yet perfected. The Evanston kitchen, which is now more than a year old, has become a model after which numerous similar kitchens have been patterned all over the country. It delivers hot meals to the home by motor truck.

Outgrowth of War  
 The Evanston kitchen is an outgrowth of the war. In the summer of 1918, the Evanston Women's Club conducted a particularly successful community kitchen. The club's record for the season was 7,000 jars of fruit and vegetables, most of which went to charitable institutions. When the influenza epidemic struck the country in the fall of that year, the club extended its activities and for a time served an average of 200 meals daily to those who were stricken and their families. From these activities came the idea of a permanent kitchen and its establishment was due to three members of the Woman's Club, Mrs. James A. Odell, Mrs. Rufus C. Dawes and Mrs. Homer H. Kingsley.

Suffers from Starvation  
 "Evanston has been suffering from a shortage of domestic help," said Mrs. Odell, in explaining the plan. "Everywhere women, especially young mothers, are finding it impossible to do all that is required of them, to take care of the babies and the house, and have any leisure for the homecoming of the husband. An increasing number of families are frequenting the hotels and cafes, sacrificing family life and interests to necessity. We felt that by delivering dinners to such homes, a service would be rendered not to the families alone, but to society as well, by preventing the disintegration of the home and the annihilation of the family table."

Adequate Container  
 The big problem, however, proved to be an adequate container. From the experimental stage to the perfected aluminum, glass-lined dish, these three women, who have now incorporated the Evanston Community Kitchen and serving, claim the distinction of developing the best thermal containers now in use.

A complete meal is prepared in the kitchen, placed in suitable thermal dishes, heated to a high temperature and the portions enclosed in a large thermal container. The food retains its original temperature approximately six hours, so that it is still piping hot when it is delivered to the patron's home by motor truck. The empty dishes are collected the following morning and the housewife is relieved of all concern over her evening meal.

For the service, a charge of 25 cents for each meal is made, plus 35 cents delivery charges. The kitchen has already proved a paying proposition and its success has been so marked that representatives from Los Angeles to Cleveland have visited the kitchen to

## "ASPIRIN"

**WARNING!** Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians for 20 years and proved safe by millions.

EVENTS AND GOSSIP FOR THE FANS

## BISMARCK HIGH FOOTBALL TEAM TO MEET MANDAN

Coach Aseltine Keeps Big Squad in Dark as to Just Who Will Play Game

### YELL PRACTICE IS HELD

The Bismarck high pigskin chasers are all rearing to go with Mandan Saturday.

The only difficulty is that Coach Harry E. Aseltine won't tell just who is to go.

The boys have been kept in hot water all week by the coach. He refused last evening to name his Saturday line-up. He may inform the squad of 30 this afternoon who will start the game, but it is probable that he will wait until just before the game starts.

The coach has numbered 18 players, so that they may be easily distinguished by the spectators who see the game with Mandan, Saturday. With only three old men back—Capt. Phil Boise, Bob George and Cuck Moses—the coach is making every man fight for a position on the team.

Hard work is Coach Aseltine's rule. The players don't loaf a bit. Lacking in beefy material, he is gathering together a speedy bunch of players. A tackling dummy has been set up in capital park, the first tackling dummy ever used by the high school.

The coach's injunction is to "hit 'er hard." Mandan beat the reform school 55 to 0 and has a well coached team. Jamestown comes to Bismarck on Oct. 23 and on Oct. 30 a return contest will be played at Mandan by the local team.

Players Numbered

The high school students plan to support the team loyally on Saturday. Yell practice was held at the high school last evening with John L. Bach as leader.

The players who will have big white numbers on their backs Saturday and the positions they are trying for, follows:

No. 1, Capt. Phil Boise, left half; No. 2, Hog George, full back; No. 3, "Chuck" Moses, quarterback; No. 4, Kuch, halfback; No. 5, Taylor, end; No. 6, Burke, end and half; No. 7, Livdahl, center and guard; No. 8, Plow, guard; No. 9, Rigler, guard; No. 10, Brown, end and half; No. 11, Halloran, center and tackle; No. 12, Hassell, tackle; No. 13, Scott, tackle; No. 14, Scroggins, tackle and end; No. 15, Conway, tackle; No. 16, Alfson, tackle; No. 17, Rhoad, guard; No. 18, LaFrance, end. The following players, who have been working hard may have an opportunity to get in the game: Preston, Danrot, Nussle, Knutson, B. Neff, G. Neff.

## FAKE CHARGES BRING ANSWER OF CARPENTIER

Frenchman Declares Yankee Fair Play Should Be Exercised

New York, Oct. 15.—Reports circulated in sporting circles and published in some newspapers intimating that the bout Tuesday night at Jersey City between Georges Carpentier and Battling Levinsky was not fairly fought, brought strong denials from the principals and others interested in the contest.

"Before I came to America," Carpentier said, in a signed statement, "I looked upon all Americans as the personification of fair play; of sportsmanship in the true sense. In fact, I thought America was the land of the square deal. You went to war to insure the world of fair play. I did all you asked me to do. I fought the main selected for me to fight. And this is what I get—the night is called a fake.

"I give you a square deal. That is all I ask."

"I pledge my honor as a soldier and a citizen of France to the great

## YALE MAY ADOPT RUNNING STYLE OF FOOTBALL ATTACK THIS FALL

Captain Tim Callahan is back at Yale. An injury to his knee kept him out of the early scrimmages. Sloane is a backfield candidate. He is developing his kick. Lower inset shows Tad Jones, who is back at the helm of the Blue eleven.

Head Coach Tad Jones isn't saying much about the forward pass this year, but it is believed the Blue will be displaying the running attack before the season reaches the big games.

Yale eleven have always adhered to the more conservative style of play, with the exceptions of 1914 and 1915, when they ran wild with the lateral pass.

But their conservative football didn't succeed last year against the more modern methods of attack as practiced by rival squads.

That's why it is believed that Jones will shake off some of the old Yale conservatism. He has never been enthusiastic over the forward pass during his reign as a coach.

Eight of last year's team have been lost, but there is some excellent material from the ranks of the 1919 freshmen.

Tim's Jinx

Captain Tim Callahan has been unable to start off in his regular position as center, due to knee trouble. During his three years on the team injuries have kept him out of early games. It seems to be his jinx.

Tim's big brother is captain and center of the Princeton eleven. They'll clash on Nov. 13 at Princeton.

American republic that I fought to the best of my ability and I sincerely believe from the bottom of my heart that Levinsky did the same."

Levinsky's statement said in part: "It is not possible for me to do anything to prove that this cowardly attack on my honesty is undeserved. In regard to the fight, I know my vindication if ever Carpentier meets me."

In the second round Carpentier hit me harder than I ever have been hit before. From that moment to the end of the contest I was dazed."

John S. Smith, chairman of the New Jersey boxing commission, expressed the opinion that the bout was honest.

COAST QUIZ TODAY

Los Angeles, Oct. 15.—Five subpoenas were issued by the district at-

baseball, fined \$25 for their dispute yesterday at the local park. Brasili, Saints' utility man, must pay \$25 and Outfielder Jacobson of Baltimore a like amount for alleged offense during the games at Baltimore.

The two teams meet in the sixth game of their series here today, with Baltimore having won four contests to St. Paul's one.

## MAJOR BOSSES DISAGREE ON OWNERS CONFAB

Johnson Thinks Session Should Not be Held While Jury is Meeting

New York, Oct. 15.—A difference of opinion exists between President Johnson of the American League and President Heydler of the National League regarding the advisability of holding a meeting of the major league club owners to plan for the future of baseball while the Cook county jury is in session in Chicago. President Heydler made public statements between him and President Johnson relative to the meeting, which has been called for next Monday at Chicago.

"It is my judgment that to hold a meeting of major league club owners at this time would be a mistake," Johnson's telegram said. "The Cook county grand jury has been reconvened and will continue its investigation into the deplorable conditions that exist in professional baseball. Much important testimony will be presented which must weigh heavily on the future deliberation of the self-appointed custodians of the game." Heydler, reply said the action of the National League members in extending an urgent invitation to the league and club presidents of the American league to attend the proposed meeting was unanimous. The meeting was called, he said, to formulate plans for the future government of and the safeguarding of professional baseball.

## SOVIET REGIME HAS MUCH WHEAT UNDER CONTROL

Berlin, Oct. 15.—The Russian soviet republic has about 180,000,000 bushels of wheat at its disposal this year, according to a statement made to the Red Flag, a local communist organ, by Dr. Schlowsky, who arrived here from Moscow.

Schlowsky is said to be in the soviet's diplomatic service and was formerly a legation counselor in Berlin. He says that 225,000,000 bushels of wheat are nominally needed to feed Russia but the government is confident it will pull through the coming winter.

The food and transport situation

is also showing improvement.

Dr. Schlowsky said that General Wrangel, commander of the troops fighting the bolsheviks in southern Russia, would be disposed of within a few weeks. He added that, while General Wrangel's forces were estimated at slightly more than 100,000 his reliable fighting army consisted of only 60,000, chiefly former troops of General Denikin who was defeated by the bolsheviks.

SUBSTITUTE FOR RADIUM

Columbia, Mo., Oct. 15.—A perfect substitute for radium can be produced through a chemical process which purifies mesothorium, according to G. F. Breckenridge and Dr. Herman Schlund of the department of chemistry of the University of Missouri, who have been conducting experiments in conjunction with Dr. A. B. Moore of the United States Bureau of Mines.

Mesothorium is a by-product in the manufacture of mantles for gas lamps and is found in the monazite ore of Brazil.

The radium substitute can be used effectively as a radium substitute for medical purposes, it is said.

STANFORD TRIES TO AMERICANIZE GAME OF RUGBY

The ancient game of rugby is passing in the United States. Football is being thoroughly Americanized.

Rugby's last stronghold was on the Pacific coast. Now another college has abandoned it in favor of the American three-down-and-four-to-go variety.

A call was sent out for a Middle West football expert to give Leland Stanford a team that could compete with the best next fall. Last year the coast university tried American collegiate football in place of rugby but the result wasn't very satisfactory.

Walter D. Powell, former Wisconsin star and later coach of the Western Reserve University eleven at Cleveland, has taken on the job.

Powell, who comes from Reedsburg, Wis., was All-Western center on the last conference championship team the University of Wisconsin boasted. He will give the coast players a "Big Ten" brand of football, which was ground into him by "Big John" Richards and "Germany" Schultz and with which he succeeded in giving Western Reserve crack teams up to the time he was called into the army as an athletic director.

On his return from service last year Powell was engaged to put Montana State College on the football map. He succeeded in whipping together a team that tied University of Montana. Now he has been engaged as director of major sports at Leland Stanford, with particular instructions to Americanize the old rugby football team.

ST. PAUL PLAYERS ARE GIVEN FINES

St. Paul, Minn., Oct. 15.—Fines have been imposed upon three St. Paul players and one Baltimore player as the result of arguing with the umpires in the junior world series being played between the two teams, it was announced here today. Dan Boone, St. Paul shortstop, was assessed \$50 and Leo Dressen, local first

## PLANS AIRPLANE DASH FOR POLE

JOHN L. COPE

LONDON.—An airplane dash to the South Pole! This is the goal of John L. Cope, who is the head of a party which is now en route to the Antarctic Imperial Antarctic Expedition, following which Cope will enter on a five-year push into the land of ice to the south. It is planned to bring the expedition to a climax with an airplane dash for the pole.

he said is also showing improvement.

Dr. Schlowsky said that General Wrangel, commander of the troops fighting the bolsheviks in southern Russia, would be disposed of within a few weeks. He added that, while General Wrangel's forces were estimated at slightly more than 100,000 his reliable fighting army consisted of only 60,000, chiefly former troops of General Denikin who was defeated by the bolsheviks.

## Report Peking Rule Overthrown

Washington, Oct. 15.—Rumors in Shanghai that the Peking government had been overthrown are believed by officials here to be disposed of by a message received today at the White House from Hsu Shih Chang, president of the Chinese republic. The message was dated at Peking yesterday and was in reply to one of congratulation recently sent by the president on the occasion of the Chinese national anniversary.
